Grief and loss often bring feelings of uncertainty and doubt. Join us for a gentle, creative experience where you'll learn how to arrange a beautiful floral bouquet to take home.

Together, we'll explore the symbolism of flowers and how their meaning can support us in finding moments of hope and joy along our grief journey.

All materials are included. We look forward to creating and reflecting with you.

Lisa Story, a nature enthusiast, is the founder of Hope Grows, a non-profit organization Cultivating Caregiver Wellness. A Licensed Professional Counselor and Certified Thanatologist, Lisa's professional experience in grief & bereavement and the connection to the natural world has led her to the path of the non-profit. She also holds Certificates in Addiction Counseling and Horticultural therapy.
